### COURSE DESCRIPTION

This course covers an introduction to basic incident investigation procedures and describes analysis techniques. Course topics include reasons for conducting incident investigations, employer responsibilities related to workplace incident investigations, and a four-step incident investigation procedure. The target audience is the employer, manager, employee, or employee representative who is involved in conducting incident and/or near-miss investigations. Upon course completion students will have the basic skills necessary to conduct an effective incident investigation at the workplace

**Who should attend:** Safety Officers, Town Managers, and Department Heads or individuals designated with the responsibility to develop and maintain a safety and health program or system. This training is suitable for safety leaders, committee members, HR, and safety professionals responsible for improving the safety and health culture and best practices in their workplace.

*Attendance at this seminar qualifies the MIIA member for 1% credit under the FY24 MIIA Rewards Workers' Compensation category.*

#### Presenter- Jack Popp

Jack has 40 years of global experience in Steelmaking, Shipbuilding, General Industry, Corporate Social Responsibility, and Consulting. He has developed and implemented award winning management systems. He has held positions as a Utility Engineer Assistant (USWA member), EH&S Engineer/Specialist, Global EHS&Security Director, EHS&QA Director, Vice President – Technical Services, and as a Lead Auditor (ISO 9001, ISO 14001, RBA). Jack is a Professional Member of ASSP (ASSE) and a Board Certified Safety Professional (CSP) in Comprehensive Practice. He has served as an OSHA Voluntary Protection Program (VPP) SGE (Special Government Employee) assisting OSHA's Region 1 and Region 3 in conducting OSHA VPP certification audits. Jack was a multiple recipient of OSHA's Region 1 SGE of the Year Award.

He was a past Member of the Board of Directors of the Massachusetts Safety Council. Jack specializes in Management Systems; Hazard Recognition/Evaluation/Control; Employee Engagement; Accident Investigations; Advanced Manufacturing; and Assessments/Audits. Jack has presented at regional, national, and international safety conferences.
