

# Facilities Management

## The Value of AI for Facility Managers Webinar

Artificial Intelligence (AI) is revolutionizing industries across the globe, from healthcare and finance to manufacturing and facility management. Join us for a presentation that will provide an overview of AI exploring its various forms, practical everyday applications, and the potential dangers and risks associated with its development. We will also discuss the future of AI, and how it is implemented in Facility Management today.

### It will include:

- **Predictive Maintenance:** How AI is being used to predict and prevent equipment failures before they occur.
- **Energy Efficiency:** Leveraging AI to optimize energy use and reduce operational costs.
- **Security Enhancements:** Using AI to enhance security systems and BMS/BAS networks.
- **Decision-Making Co-Pilot:** The role of AI in support of the decision-making processes and helping facility managers make informed data-driven decisions.
- **Live Demonstration:**  
**AI in Action for Facility Management** - A live demonstration will show AI application(s) in facility management, providing real-time examples of how AI can enhance predictive maintenance, improve energy efficiency, and boost overall operational performance. This interactive segment will offer practical insights into the future of facility management with AI.

### DATE

Tuesday, May 19

### LOCATION & TIME

Virtual

10:00am - 11:00am

### PRESENTER

**Alessandro Agnello**

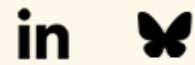

Alessandro is the CEO and Founder of True Data Ops, a company that makes building operations easier by using technologies like AI, predictive maintenance, and real-time analytics. Alessandro is also a US Air Force veteran who enjoys mentoring other veterans. He has a PhD in Computer Science and holds 12 patents for inventions in different fields (e.g., AI, Facility Management, Medical, Government, and Computer Security), including technology featured in a Microsoft commercial. Alessandro has implemented innovative solutions worldwide, taught at UMASS
