

Municipal Governance

Disaster Recovery for Municipalities: All Seasons Approach

4 Part Webinar Series presented by MIIA and Agility Recovery

This four-part webinar series, presented by MIIA in partnership with Agility Recovery will guide your municipality through preparing for and recovering from severe weather events and other business disruptions. All four sessions will be conducted by Patrick Pok, Customer Success Manager at Agility Recovery Services.

[Schedule and Topics](#)

September 16th from 10:00am - 11:00am - Week 1: Peak Hurricane Season

This webinar will explore key hazards to consider in your emergency preparedness planning and discover best practices for resilient risk mitigation.

We'll provide an updated outlook on the remainder of the 2026 hurricane season and discuss how natural disasters can impact organizations differently. Understanding the unique risks facing your municipality is essential to safeguarding infrastructure, ensuring employee safety, and maintaining business continuity.

October 15th from 12:00pm - 1:00pm - Week 2: Preparing your Municipality for Adverse Weather

Severe weather events—such as floods, hurricanes, and tornadoes—are among the top causes of business disruptions. Join our upcoming webinar to discover practical strategies you can implement today to safeguard your operations against storm-related power outages and interruptions.

November 17th from 10:00am - 11:00am - Week 3: Winter Weather

Winter storms are unpredictable and can bring your operations to a standstill without a solid business continuity plan.

This webinar will guide you through preparing your municipality for winter weather, minimizing operational disruptions, and applying lessons from past seasons. You'll gain insights into effective preparation strategies, ways to mitigate storm impacts, and forecasts for the upcoming winter.

December 9th from 10:00am - 11:00am - Week 4: How to Prepare and Recover from Severe Weather

This session will explore practical steps to prepare for winter weather and effectively respond to and recover from related disasters. Attendees will learn the distinctions between Winter Weather Advisories, Watches, and Warnings, understand the risks involved, and discover how to create and implement a winter storm plan. The webinar will also highlight common mistakes made during crises and how to avoid them.
