

MIIA

Risk Management

Work Safe. Be Safe.

Dear Members

MIIA through a collaboration with Agility Recovery has made a number of services available to our members to assist with business interruption and recovery from disaster-related incidents. In addition, members will be receiving customized alerts such as weather alerts sent as emails or texts to designated representatives in their communities. To reacquaint you with this valuable program and the many ways in which it can support you, MIIA and Agility would like to invite you to a webinar on March 23rd at 9 a.m.
