

The Benefits of an Occupational Health Network

April 6, 2023

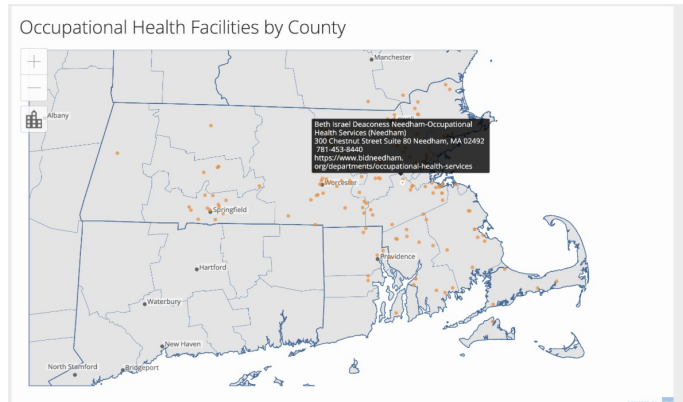

Dear Members,

We'd like to remind you of one of MIIA's most valuable tools in mitigating your Workers Compensation claims—the MIIA Occupational Health Network.

When workplace accidents happen, our number one priority is to ensure that your injured employee gets the most appropriate treatment as soon as possible.

MIIA's Occupational Health Network provides a practical approach to injury management and a safe return-to-work focus. This resource helps mitigate and reduce the risk and costs associated with occupational injury and illness and provides timely access to quality, individualized care for employees.

On MIIA's [OccHealth Network page](#), you'll find an interactive map showing locations of Occupational Health Facilities by county.

How to use this resource:

To find a local provider, please hover over a dot in your surrounding area. Once the cursor is over a dot, it will reveal the provider's name, address, contact name, phone number, website, and specific services available.

You're invited

The Benefits of an Occupational Health Network webinar Presented by MIIA Member Services Workers Compensation staff

Date: Thursday, May 4, 2023

Time: 10:00 a.m.- 11:00 a.m.

[Register](#)

During this session, you'll learn about the many benefits of using our Occupational Health Network – to reduce delays in medical treatment, provide clear and concise disability notes, and accelerate return to work for your employees. MIIA's Occupational Health Network provides a practical approach to injury management and a safe return-to-work focus. We'll review how to use MIIA's Occ Health interactive map to find local health facilities that provide the services you need.

MIIA | 3 Center Plaza Suite 610 , Boston, MA 02108
