

TECHNICAL TRAINING

Chipper Safety & Operations Training and Qualification

Monday, April 2, 2018
Winchendon Town Hall
109 Front St.
Winchendon, MA 01475
8:00 a.m. - 3:00 p.m

(registration/light continental breakfast 7:45 a.m.)
Lunch Provided

This one day training and qualification course is designed to train workers to understand how to safely and properly operate wood, brush, and whole tree chippers and the very important role they play in overall job site safety and accident prevention. A strong focus on risk management, safe and ergonomic work practices is demonstrated and practiced in this course. Each individual is given a competency test and if successful is awarded a Qualification Certificate as a competent Chipper Operator.

TOPICS COVERED:

Integrated risk management & emergency readiness

- P.P.E. (personal protective equipment)
- Risk Assessment Inner and Outer perimeter Survey
- Work Zone and Drop Zone setup
- Emergency Action Plan

Communications

- Communication and creating a culture of accountability on a job site
- Voice command response, signals for backing up truck and chipper

Ergonomics and accident preventative work practices

- Ergonomic lifting procedures, dragging & stacking brush efficiently

Types of Chippers

- Rotary drum chipper
- Mechanically fed drum chippers
- Mechanically fed disk chippers

Chipper operations

- Safety and efficiency
- Pre-start inspections and shut down procedures
- Brush and wood feeding procedures
- Avoiding and dealing with brush jams or clogs
- Lock out / tag out procedures prior to maintenance
- Basic maintenance
- Proper hook up
- P.P.E. (personal protective equipment)

Creating a safe working area

* Cones & safety signage set-up, dealing with moving obstacles or hazards, traffic and pedestrian handling
