

Hot Work Training

Who is required to attend hot work safety training?

Anyone who performs, supervises, or delegates hot work must successfully complete a State of MA approved hot work safety training program.

What is hot work?

Hot work is any work process that involves heat, spark, or flame that is capable of starting fires or explosions. Examples include, but are not limited to, welding, cutting, grinding, soldering, heat treating, hot riveting, torch applied roofing, abrasive blasting, and powder driven fasteners.

Discussion Topics

- Standards and Guidance
