We all know training is critical to employee safety and mitigating claims but for many employees, the travel involved in onsite training can be an obstacle. MIIA has been addressing this issue for several years, especially since the pandemic, through a combination of virtual training and E-learning platforms like LocalGovU. Through LocalGovU MIIA members can take over [200 free courses](#) covering an extensive list of management and technical topics, many of which are also eligible for MIIA Rewards credits. These courses can be accessed 24/7 from any device with internet access.

On Tuesday, May 23, Ren Heitman, MIIA's LocalGovU customer service representative, will take us on a virtual tour of MIIA's e-Learning Platform. Ren will take a look at the virtual platform from both the administrator side and the training participant and offer some innovative ways that you can use LocalGovU such as compliance training and onboarding new employees.

We hope you will be able to join us for this informative webinar!
