

OSHA # 500 TRAINER COURSE IN OCCUPATIONAL SAFETY & HEALTH STANDARDS FOR CONSTRUCTION

**Tuesday, November 1 - Friday November 4th.
(4 day program)
8:30 a.m.- 4:30 p.m.**

Registration for day 1 automatically registers you for all 4 days of this program

This training requires all participants to remain on camera the entire time.

COURSE REQUIREMENTS

Participants must meet the following requirements to participate in this program

<https://oshaedne.com/wp-content/uploads/ActivePrereqVerificationForm1.pdf>

<https://oshaedne.com/outreachtrainers/how-to-become-an-outreach-trainer/>

COURSE DESCRIPTION

Course Description: This course is designed for those interested in teaching the 10- and 30-hour construction safety and health outreach program to their employees and other interested groups. Special emphasis is placed on those topics that are required in the 10- and 30-hour programs as well as on those that are the most hazardous, using OSHA standards as a guide. Course participants are briefed on effective instructional approaches and the effective use of visual aids and handouts. This course allows the student to become a trainer in the Outreach Program and to conduct both a 10- and 30-hour construction safety and health course and to issue cards to participants verifying course completion.

Note: Students in Course 500 who wish to participate as authorized trainers in the OSHA Outreach Training Program must prepare a presentation on an assigned OSHA Construction Industry topic and pass a closed book examination. Authorized OSHA Construction Outreach Trainers are required to attend Course 502 at least once every four (4) years to maintain their outreach program trainer status.

Presenter

Steven R. Myers, CFI has 25 years experience in safety and health. Steve is a former occupational safety compliance officer with Vermont OSHA and is an experienced trainer in a variety of regulatory fields. Steve has spent many years working in the private sector in both general industry and construction. He brings a unique perspective to employers and employees with his knowledge and understanding of safety regulations, and experience managing workers compensation claims in the insurance industry.
