Register [here](#)

Please note all participants must register with an individual email and remain on camera to participate or receive credit for this training

This training requires all participants to remain on camera the entire time.

COURSE DESCRIPTION

Course Description:

This 2-day course is intended to provide a variety of awareness training on construction safety and health topics. The course is presented to employees and therefore places an emphasis on identifying common hazards in the construction industry as well as avoidance, control, and prevention - not simply OSHA standards. Upon successful completion of this course, participants will receive an OSHA Construction Safety and Health 10-hour card.

*Attendance at this seminar qualifies the MIIA member for 1% credit under the FY22 MIIA Rewards Workers' Compensation category.
You must attend both days on camera to qualify for this credit.*

Instructor:
Martha Catevenis, CSSM

Martha is a safety and health consultant who has been an instructor with the OSHA Training Institute Education Center Region 1/Keene State College since 1999, instructing both general industry and construction related courses. She owns a New England-based consulting firm, which services the construction, mining and general industries. She has BS degree in Applied
