

OSHA# 2225 Respiratory Protection

October 24, 25, 26, & 27 2022

8:00 a.m. - 4:30 p.m.

4 day series

Mandatory Orientation at 7:30 a.m.

This training requires all participants to remain on camera the entire time.

COURSE DESCRIPTION

Course Description: This course covers the requirements for the establishment, maintenance, and monitoring of a respirator program.

Topics include: terminology, OSHA Respiratory Protection Standards, NIOSH certification, respiratory protection programs, and medical evaluation requirements. Program highlights include workshops on respirator selection, qualitative and quantitative fit testing, and the use of respiratory protection and support equipment. Upon course completion students will have the ability to identify and describe the elements of a respiratory protection program, the proper selection, use, and inspection of respiratory protection, protection factors, and evaluate compliance with OSHA Standards.

Attendance at this seminar qualifies the MIIA member for 1% credit under the FY22 MIIA Rewards Workers' Compensation category.

Presenter

STEVEN MYERS, CFI

Steven R. Myers, CFI has 25 years experience in safety and health. Steve is a former occupational safety compliance officer with Vermont OSHA and is an experienced trainer in a variety of regulatory fields. Steve has spent many years working in the private sector in both general industry and construction. He brings a unique perspective to employers and employees with his knowledge and understanding of safety regulations, and experience managing workers compensation claims in the insurance industry.
