(Registration/Continental Breakfast 7:30 a.m.)
Lunch Provided**

All OSHA Courses conducted by the OSHA Education Center are approved for Training Contact Hours (TCH)
for Wastewater Treatment Operators by the Board of Certification (MA DEP)

Course Description: - This course covers the scope and application of OSHA construction standards, as well as construction site safety and health principles with special emphasis on areas most hazardous using OSHA standards as a guide. Upon course completion students will have the ability to define construction safety and health terms found in the Standards and Subparts, identify hazards which occur on construction sites, locate appropriate subparts, interpretations and resources, and describe the use of OSHA Standards and regulations to supplement an ongoing safety and health program. Participants learn through facilitated discussion, exercises, and activities. Covered are the effects of workplace injuries and illnesses, the mission and importance of OSHA in the workplace, organization, origin, codification of OSHA Standards, processes and rules for OSHA inspections, citations, penalties and policies, with an orientation to OSHA recordkeeping requirements for injuries and illnesses, OSHA safety and health management programs, and an understanding 'how to' use the 29 CFR 1926 Construction Standards Code of Federal Regulations. Participants must attend all modules and pass a multiple choice examination for successful course completion.

Who should attend: Safety Officers, Town Managers, and Department Heads or individuals designated with the responsibility to develop and maintain a safety and health program or system. This training is suitable for safety leaders, committee members, HR and safety professionals responsible for improving the safety and health culture and best practices in their workplace.

Attendance at this seminar qualifies the MIIA member for 1% credit under the FY20 MIIA Rewards Workers' Compensation category
