

OSHA #7410 Managing Excavation Hazards

Wednesday, June 30, 2021

8:30 am- 4:30 (mandatory orientation at 8 am)

Important- All registrants must read and comply with the following

[Key Practices for Zoom](#) and remain on camera the entire time.

Course Description: -

This course is designed as a training program to inform employers and employees of the best practices in trenching and excavation safety. The participant will learn about the role and responsibility of the employer to assign a “competent person” to the excavation site and provide that person with the knowledge of key excavation hazards. Topics include: understanding and application of definitions related to OSHA’s excavation standard; excavation hazards and control measures; soil analysis techniques; protection system requirements, and emergency response. The program is a facilitated interactive session.

Attendance at this training qualifies the MIIA member for 1% credit under the FY22 MIIA Rewards Workers' Compensation category
