

OSHA Certificate Program

OSHA# 7200 Bloodborne Pathogen Exposure Control

Thursday, January 27, 2022
8:00 a.m. - 4:30 p.m.
Mandatory Orientation at 7:30 a.m.

This training requires all participants to remain on camera the entire time.

COURSE DESCRIPTION

Using a step-by-step approach this one-day workshop will review a Bloodborne Pathogens Exposure Control Plan. The target audience is the program administrator, manager, or other personnel designated with the responsibility of developing a Bloodborne Pathogens Exposure Control Plan.

Topics include: Bloodborne Pathogens Standard, Exposure Control Plan, Exposure Determination, Methods of Control, Vaccinations, and Evaluations.

Who should attend: Safety Officers, Town Managers, and Department Heads or individuals designated with the responsibility to develop and maintain a safety and health program or system. This training is suitable for safety leaders, committee members, HR, and safety professionals responsible for improving the safety and health culture and best practices in their workplace.

Attendance at this seminar qualifies the MIIA member for 1% credit under the FY22 MIIA Rewards Workers' Compensation category.

Presenter

Lev Pobirsky is the Senior Director- Safety & Security for Pepsi-Cola National Brand Beverages. In his role, he provides safety security, and risk leadership to over 8,500 employees at over 40 manufacturing facilities, warehouses, and transportation depots across the United States. He is a certified OSHA General Industry & Construction outreach trainer and a Certified Health and Safety Manager, and a Certified Safety Professional.

Prior to corporate life, Mr. Pobirsky served as an Infantry & Special Operations Officer in the United States Marine Corps, attaining the rank of Captain. He has worked and trained with various federal agencies on the topic of workplace violence and active shooter response.
