Tuesday, March 12, 2019

Holy Cross, Hogan Conference Center

1 College St. Worcester, MA 01610

7:30 a.m. - 3:30 p.m.

(Registration/Continental Breakfast 7:15 a.m.)

Lunch Provided

All participants are required to submit an OSHA Training Institute Education Center Registration form (which will be sent on registration) to attend this training

All OSHA Courses conducted by the OSHA Education Center are approved for Training Contact Hours (TCH) by the Board of Certification/MA DEP

Course Description: - This course covers common health hazards encountered in the workplace. These health hazards include exposure to chemicals, asbestos, silica and lead. Course topics include identification and evaluation of health hazards and their sources of exposure, health hazard information, hazard communication's globally harmonized system (GHS), and engineering and work practice controls. Students participate in workshops on evaluation and abatement of workplace health hazards. Upon course completion students will have the ability to understand common health hazards in the workplace and methods for controlling and abatement of these hazards. Contact hours: 7

Who should attend: Safety Officers, Town Managers, and Department Heads or individuals designated with the responsibility to develop and maintain a safety and health program or system. This training is suitable for safety leaders, committee members, HR and safety professionals responsible for improving the safety and health culture and best practices in their workplace.

Attendance at this seminar qualifies the MIIA member for 1% credit under the FY19 MIIA Rewards Workers' Compensation category
