October 2nd & 3rd
Tuesday and Wednesday
8:00 a.m. to 3:00 p.m.
Reading Police Department
Community Room
15 Union St, Reading, MA 01867

(Registration/coffee and pastries 7:45 a.m. light lunch included 10 TCH

The New England Consortium has partnered with MIIA to lead this comprehensive 10-hour training, which emphasizes hazard identification, avoidance, control and prevention in the construction industry. Training is based on various topics in OSHA's Construction Industry Regulations.

The OSHA 10 Construction class is an "awareness" class not a detailed, exhaustive review of OSHA regulations. Participants will engage in small group activities and discussion as well as a review of photos and videos. This 10-hour training will provide a general overview of OSHA and include the following topics:

RESOURCES

THE NEW ENGLAND CONSORTIUM

PRESENTERS

Bridget McGuiness

previously worked for EPA as an environmental engineer and has a BS in civil engineering and numerous Massachusetts licenses and certifications

Tom Estabrook worked for 20 years with labor, environmental and health organizations as an advocate for worker health and safety in MA and Louisiana. He also worked in the labor and residential construction industry and is a local union leader in MA teachers
