

Overview of MIIA Fall 2021 OSHA Certificate Program

**You are invited to an Overview of MIIA's Fall OSHA Safety & Health Fundamentals Certificate Program
Wednesday, August 18, 2021
10:00 a.m.**

[Join link](#) (there is no registration required)

Over the past two years MIIA, in conjunction with the OSHA Training Institute Education Center (Region 1) has offered a unique, free, opportunity to its members to participate in the OSHA *Safety and Health Fundamentals Certificate Program (SHF)*. Program participants take training through the OSHA Training Institute Education Center in specific core and elective courses in both Construction and General industry (a total of 112 hours of training) over the course of a year and at completion they receive a federal certificate signed by the Office of Training and Education/OSHA.

MIIA would like to once again invite our member communities to participate in the SHF Program beginning September 14, 2021. Twenty-eight slots will be available for this opportunity. Certificate graduates have found that the SHF Program (formerly PSSHF) has increased confidence and enabled them to become a valuable safety resource for both their own communities and their region.

On August 18th, at 10:00 a.m. (Eastern time) John(Sean) Ryan, Program Director, Kathie Sperry, Administrator and Site Coordinator, Leslie Singleton, OSHA Outreach Coordinator, Jen English, Marketing and Communication Coordinator and Lev Pobirsky, CHSM, OSHA Education Center Instructor, will participate in a brief zoom presentation along with MIIA Risk Management representatives to give an overview of the Fall program and to answer questions.

We hope you will be able to join us
