This webinar will review the importance of a Return-To-Work program and how to implement the policy. A successful Return-To-Work program is designed to return an injured employee to the workplace as soon as it is medically reasonable to do so, thus reducing workers' compensation costs. A Return-To-Work program is designed to successfully rehabilitate and return the injured employee to productive work in the shortest possible time.

The webinar will be presented by Niko Pappas, Director of MIIA Operations, and Peggy Doherty, Asst Director MIIA WC claims.
