## You have options

# Quicker, Less Expensive Alternatives to the ER

You should always go to the nearest emergency room in a life-threatening situation. But in other cases, even for urgent injuries, you have other options that can save you time and money.

## First, Talk to Your Primary Care Provider

Unless it's a true emergency, it's always best to call your doctor's office first, even after hours. He or she may want to see you or suggest alternatives to the emergency room. If the doctor's office is closed, there may be recorded after-hours care instructions or the option to speak with an on-call nurse or doctor who can provide advice based upon your medical history. After you call your doctor, in the absence of severe symptoms, consider the options below:

Option	What It Is	What They Can Help You With	Hours	Relative Cost	How to Find One
<b>Blue Care Line<sup>SM</sup></b>	Speak with a nurse by phone. Explain your symptoms, and the nurse will help you decide what to do next. ## Notes About Limited Services Clinics and Urgent Care Centers:

- If your doctor's office does not offer urgent care as part of their practice, make sure to check Find a Doctor regularly, as new limited services clinics and urgent care centers are always being added. If you're logged into Member Central, your network will display automatically. If you're using our public Find a Doctor site, be sure to verify the name of your plan, found on your Blue Cross ID card, and click the Which Network Should I Choose? link for additional help.
- Verify that your health plan covers care at the location you choose.
- If you're outside of Massachusetts, call Member Service at the number on the front of your Blue Cross ID card to confirm if the clinic is in our network or if you need a referral.
